INFORMATION FOR APPLICANTS

17	Description of Assignment	The objectives for the design and development of the mobile Apps aims to address the existing limitations and fulfill the desired functionalities. The solutions encompass the following key elements:
		1. NGO Registration Management: This application is designed to streamline and modernize the NGO registration process, providing the Upazila Administration with a comprehensive tool to manage and oversee NGO registrations efficiently.
		2. VC Locator: The VC Locator app is a Voting Center Locator developed for the Upazila Administration, offering a user-friendly solution to locate and navigate voting centers during elections, enhancing the democratic process.
		3. UP Assessment Management: Focused on empowering Union Parishads, this app centralizes and manages assessment information, facilitating effective decision-making and resource allocation for community development projects.
		4. AMAR AI (LLM and Image Generation): Under the umbrella of the ICT Division, the AMAR AI project is set to redefine the landscape of mobile applications. With a focus on Language Model Mastery (LLM) and Image Generation, this app will showcase the prowess of artificial intelligence in fostering creativity and innovation.
		5. AR STATION (Artificial Reality App): As part of the cutting-edge technology, the AR App project is poised to introduce an Augmented Reality experience. This app aims to push the boundaries of reality, offering users an immersive and interactive digital overlay on the real world.

18	Experience, Resources and Delivery Capacity Required	Development firm must meet the following eligibility criteria with documentary proof of compliance: 1. Must be a Bangladeshi firm having valid & up-to-date trade license (2023-2024), TIN Certificate, Tax Clearnce certificate, VAT identification number. 2.
